PROFILE

BCA student focused on front-end and full-stack web development. Built and independently deployed CityByteHub, a live gaming-cafe management system, and a real client website for Lala Paneer Udyog. Hands-on experience with responsive interfaces, Firebase data handling, booking workflows and admin dashboards. Seeking a web development internship to contribute to real products and grow through practical development.

EDUCATION

Senior Secondary (12th)	Target Sr Sec Sch, Jaipur, Rajasthan Passed 2021 · 93.40%
Secondary (10th)	Kiran Public Sr Sec Sch, Jaipur, Rajasthan Passed 2019 · 75.50%

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript Database / Backend: Firebase Firestore Tools: Git, GitHub, Vercel
Focus: Responsive Web Development, Admin Dashboards, Real-time Data

PROJECTS

CityByteHub — citybytehub.me · Gaming Cafe Management System

Tech: HTML5, CSS3, JavaScript, Firebase Firestore, Git/GitHub, Vercel

- Built an online booking system for gaming PCs, PS5, desktops, mobiles and other cafe services with real-time availability and pricing.
- Developed separate Admin/Staff management panels with booking accept/reject controls, customer inquiries, booking history and analytics.
- Added Student Weekly/Monthly cards and Prime Card workflows, plus customer booking tracking using booking number and mobile number.
- Implemented session/time management and responsive user-facing interfaces; deployed the system live on a custom domain.

Lala Paneer Udyog — lalapaneerudyog.in · Real Client Project

Tech: HTML5, CSS3, JavaScript, Firebase

- Designed and deployed a live business website for a real client with a product catalogue and pricing information.
- Added direct WhatsApp inquiry/order functionality so customers can contact the business from product pages.
- Built a separate admin panel for the owner to manage products, prices and website data using Firebase.
- Implemented responsive layouts and connected the public website with the admin-managed data.
